OBJECTIVE

M.Sc. Health Informatics graduate (Jul 2026) with hands-on experience in Full-Stack Development, Machine Learning, and Data Analytics. Proven ability to build secure, data-driven healthcare applications and develop predictive models. Seeking a role in Healthcare Technology, Information Technology, or Data Science where I can deliver measurable impact.

EXPERIENCE

Full-Stack Developer Intern | Saara IT Solutions Pvt. Ltd., Karkala, Karnataka Jan 2026 – Jun 2026

- Developed KSP Care, a full-stack Laboratory Information Management System using ASP.NET Core MVC (.NET 10), PostgreSQL, and Entity Framework Core, with role-based dashboards and modules for appointments, billing, prescriptions, lab tests (LIMS), and analytics.
- Implemented secure authentication and session management using BCrypt password hashing and role-based access control (RBAC) to protect electronic health records (EHR) and administrative operations.
- Containerized and deployed the application to Render using multi-stage Docker builds, with automatic database migration and data seeding for zero-downtime deployments.
- Built an admin portal with real-time analytics dashboards, patient registration, doctor management, financial reporting, prescription tracking, and lab test result management.

AI & Machine Learning Intern | Maincrafts Technology Jan 2026 – Jul 2026

- Developed ML models for regression and classification using Python, Scikit-learn, and ensemble methods; built end-to-end ML pipelines.
- Optimized model performance via feature scaling, cross-validation, and hyperparameter tuning (GridSearchCV); evaluated models using RMSE, R^2 , F1-Score, and ROC-AUC.

Research & Development Chemist | Divis Laboratories, Telangana Jan 2024 – Jun 2024

- Conducted R&D experiments for API synthesis and process optimization in a GMP-regulated pharmaceutical environment, supporting product development and quality.
- Performed analytical testing and characterization using HPLC, GC, and spectroscopy, documenting results in compliance with GMP/GLP standards.

EDUCATION

M.Sc. Health Informatics (Healthcare IT Management) | Manipal College of Health Professions, MAHE, Udupi Sep 2024 – Jul 2026

Bachelor of Pharmacy (B.Pharm) | KVSR Siddhartha College of Pharmaceutical Sciences, Vijayawada | GPA: 7.7 Oct 2019 – Sep 2023

CERTIFICATIONS

Google Data Analytics Specialization (Google) • Healthcare Data Quality & Governance (UC Davis) • Generative AI for Healthcare (Google Cloud) • Programming in Python (Meta) • Data Analysis with R Programming (Google) • Quantum & Accenture Data Analytics Job Simulations (Forage)

SKILLS

Programming & Development: Python, C#, ASP.NET Core MVC, SQL, PostgreSQL, Entity Framework Core, REST APIs, HTML5, JavaScript, Git, Docker, Render

Machine Learning & Analytics: Scikit-learn, Pandas, NumPy, Statistical Analysis, Data Analysis, Data Visualization, Model Evaluation

Healthcare IT: EHR/EMR, HL7, FHIR, HIPAA, LIMS, Healthcare Data Governance, GMP/GLP Compliance

Languages: English, Hindi, Telugu

PROJECTS

Breast Cancer Detection using Supervised Machine Learning | MAHE, Manipal Jul 2025 – Aug 2025

- Built supervised ML models for breast cancer detection on structured clinical datasets, achieving 99% accuracy with Logistic Regression and 100% precision with Support Vector Machine (SVM).
- Performed data preprocessing, feature selection, model training, and validation using accuracy, precision, and confusion matrix.

Pharmacy Web Portal (HTML, CSS, JavaScript) | MAHE, Manipal Sep 2024 – Dec 2024

- Designed and developed a responsive, usability-focused pharmacy web portal with forms and interactive UI elements, applying frontend development to pharmacy systems.
